Acknowledgements

The authors thank the developers of the methods discussed for the insightful feedback they provided. S.M.-D. was funded by the LiSyM-cancer network supported by the German Federal Ministry of Education and Research (BMBF; Funding number 031L0257B).

Author contributions

All authors researched data for the article. P.B.-i-M., L.W., S.M.-D., R.O.R.F., R.A. and J.S.-R. contributed substantially to discussion of the content. P.B.-i-M., L.W., R.A. and J.S.-R. wrote the article. All authors reviewed and/or edited the manuscript before submission.

Competing interests

J.S.-R. reports funding from GSK, Pfizer and Sanofi, and consultant fees from Travere Therapeutics, Stadapharm and Astex Pharmaceutical. R.A. is an employee of Altos Labs. The other authors declare no competing interests.
